☑ I am/we are the OWNER(S)/OCCUPIER(S) of the property.
☑ I have authority to sign on behalf of all the other OWNERS/OCCUPIERS of the property.

In most cases the Council will require the approval of the legal owners and the occupiers of the affected property.

You should only sign below if you support or have no opposition to approval of the application for resource consent you have been asked to consider.

1. I/We have been given details of the full and final proposal, including a copy of the application form, assessment of the environmental effects and plans, and plans to which I/we are giving approval.
2. I/We agree that we have signed the resource consent application and each page of the plans shown to us relating to this application.
3. I/We understand that by giving my/our written approval, the Council cannot take account of any actual or potential effects of the activity on my/our property when considering the application. The fact that any such effects may occur shall not be relevant grounds on which the Council may refuse to grant its consent to the application.
4. Further, I/we understand that at any time before the application is finalised, I/we may give notice in writing to the Council that this approval is withdrawn, under S104(4) of the Resource Management Act 1991.
5. If the consent authority determines that the activity is a deemed permitted boundary activity under section 87BA of the Act, your written approval cannot be withdrawn if this process is followed instead.

Comments & Concerns

Darking Rd aspect:

① Ensure that removed vegetation & root matter is disposed of appropriately - especially the invasive weeds (eg. agapanthus)

② Is there a possibility of putting some sort of sediment trap (or similar) to catch the seeds of invasive weeds (eg. agapanthus) to slow the spread into the town belt (main runoff down Darking Rd gutter). Would need regular maintenance.

③ (Both Darking Rd & Waitangi Stream aspects)
Please replant as many native species specimens as possible - those that have been intentionally planted (eg. kohekohe saplings) and those that have self colonised. Either into the town belt here, or other reserve spaces. Any that will provide food for the resident Kākā, tui, kereru, visiting Korimako etc are really important.

Waitangi Stream part

④ Please note that the eucalyptus trees that will be removed from the Rolleston-Bell Rd pathway provide valuable food (sap & nectar) for kākā & tui.

Throughout Bell Rd reserve

⑤ Please note that I have removed a lot of the tape marking planted trees (as the tap was ringbarking them) - so those contractors etc who are moving through the reserve will need to know what trees are native so they don't unknowingly damage them. They
