Hi Clint

Further to our conversation just now, please see the attached updated proposed construction boundary (CK-1200 Rev B). Please could this replace the previously submitted drawing?

I also attach a drawing which Joel asked us to prepare for information (CK-1203) which shows the previous construction boundary overlaid on the proposed. This is for information purposes only.

As discussed, I confirm that we would like to withdraw the General Working Arrangement Plan (CE-1101) as this is indicative only and the final site layout will be submitted by the contractor and approved as part of the LEMP. If you could respond to confirm has been withdrawn that would be great.

Thanks,
Mel
