

Porirua Wastewater Treatment Plant performance - September 2025

Commentary	Discharges	Odour Complaints	Items of significance	Current status	
The plant is compliant for effluent quality.	No unconsented discharges in September.	No odour complaints in September.	<p>Physical works on the odour control unit (OCU) project began in September. This is a major project that will deliver a odour treatment system into the process, of which the plant does not currently have. The OCU project is expected to be completed in June 2026.</p> <p>Improvements in the biological process has returned solids concentration in the process to a more manageable level, with encouraging trends observed in the dewatering efficiency. This has improved overall sludge and effluent process outcomes.</p>	Compliant
