N/A

Conditions

1-5 as attached

For and on behalf of
WELLINGTON REGIONAL COUNCIL

P. J. Bullcock
.....
Manager, Consents Management

Date: *1 July 2002*
.....

Summary of Your Rights and Responsibilities

(Not part of the resource consent)

1905

This resource consent gives you the right to use a public resource (e.g. water, air, the coastal marine area) in the manner specified in the consent.

Provided that you comply with all the conditions of your resource consent and all other laws of the land, you may exercise the resource consent how you see fit.

If you wish to change the way you operate under this resource consent or if you wish to alter or delete any consent conditions please contact the Wellington Regional Council prior to making the changes. You may need a formal variation to your resource consent conditions.

You may transfer your coastal, discharge, or water permit to any other person. So if you sell your operation please contact the Wellington Regional Council and we will arrange the transfer. The service is free of charge.

If your resource consent application contained inaccurate or misleading information the Wellington Regional Council may ask the Environment Court to cancel or alter the resource consent.

Your resource consent does not:

- provide any warranty of any structure or process;
- provide any guarantee that the resource will be available at all times;
- provide any right of access through or over public or private land;
- negate the need for any approvals necessary under other legislation.

You, as the holder(s) of this resource consent and your agents (including contractors and employees) are jointly and severally liable for compliance with the conditions of this consent. It's important that anyone operating on your behalf fully understands and complies with the conditions of the resource consent.

You are required to pay any relevant charges that are associated with the consent. The Wellington Regional Council fixes these charges, under section 36 of the Resource Management Act 1991. The Act allows you to comment on any proposed charges *prior to them being fixed*. Charges are usually fixed every three years. If you would like a copy of our current Resource Management Charging Policy please feel free to contact us.

You are required to allow Wellington Regional Council Enforcement Officers access to your site and operation at any reasonable time so that we are able to inspect your operation and confirm it is complying with the resource consent.

Your resource consent will lapse if you do not exercise it within two years of the date it was granted (unless otherwise specified in the resource consent conditions). If this lapsing is going to be a problem please contact the Wellington Regional Council before the lapse date.

If you stop using your resource consent for a continuous two-year period, the Wellington Regional Council may cancel your resource consent. We will advise you in advance if we propose to cancel your consent. You also have the right to object to your consent being cancelled.

This consent is issued without prejudice to any claim that is lodged with the Waitangi Tribunal in relation to the customary ownership of natural resources, whether it be a claim that is pending hearing or whether it is a claim that is awaiting settlement by the Crown.

WGN020236

- (1) The location, design and implementation of the occupation shall be carried out in accordance with the application received by the Wellington Regional Council on 14 June 2002.
- (2) The permit holder shall initiate a physical inspection of the outfall within 6 months of the commencement of this permit and on an annual basis thereafter. Additional inspections shall be undertaken after significant storm events, or upon request.

The results of the inspections shall be forwarded to the Manager, Consents Management, Wellington Regional Council by 30 May each year, or upon request.

- (3) The outfall shall remain the responsibility of the permit holder and shall be maintained so that:
 - any erosion of the seabed or foreshore area due to its operation is minimised;
 - the structural integrity of the outfall remains sound; and
 - any excess material from any repair work shall be removed from the seabed and foreshore area.
- (4) At least 10 working days prior to the commencement of any maintenance activity; or in the case of urgent repairs, as soon as is practicable, but not less than 8 hours after works commence, the permit holder shall inform the Manager, Consents Management, Wellington Regional Council, in writing of its intention to begin maintenance or repair work. This information shall include:
 - (a) a schedule of proposed work dates and an estimate of the duration of the works;
 - (b) details of the nature and extent of the work;
 - (c) the contractor details, including contact information for the project manager; and
 - (d) details of the extent and duration of restricted public access and measures to ensure that alternative access arrangements are available.
- (5) The permit holder shall not unreasonably restrict the public from transiting the outfall in their use of the foreshore area, unless it is considered that such restriction is necessary for public health and safety or security reasons.
