

# Acts and plans covering the development of the Prince of Wales Reservoir

Development of the Prince of Wales Reservoir is covered by two pieces of law and other local Plans. These include:

- The Resource Management Act 1991
- The Town Belt Act 2016
- The Wellington City District Plan
- Greater Wellington Regional Council's operative regional plan and the proposed Natural Resources Plan.

We're working with Wellington City Council and the Greater Wellington Regional Council to ensure we identify and plan to meet all requirements of the Acts and Plans. This includes engaging and consulting with the community.
